## License Management

- Some license types require a license server running FLEXnet 11.9, which is provided by the MathWorks installer. A license server that is serving multiple releases of MATLAB must use the version of FLEXnet shipped with the latest release of MATLAB being served.
- TCP/IP is required on all platforms when using a license server.

## Support for Products on Operating Systems No Longer Supported

If you are enrolled in *Software Maintenance Service*, MathWorks will respond to technical questions and provide workarounds when possible for a period of two years from the date when MathWorks ended support for an operating system. See the *platform road map* for more information.
